PROFESSIONAL SUMMARY

- A result-driven passionate engineer with 5+ years of experience in DevOps, Cloud Engineering, and operations, Currently working at Oracle as part of OCI metadata management service that helps data professionals discover data and support data governance.
- Demonstrable knowledge in multiple cloud platforms like OCI, AWS, and GCP, and has expertise in tech-stack to build/operate a reliable service/product.
- Effective communicator with a deep passion for technology, strong analytical skills, self-learner, and ability to perform well in a team.

EXPERIENCE

ORACLE CORPORATION | SMTS - CLOUD AND DEVOPS | JANUARY 2020 – CURRENT

Oracle is a cloud technology company that provides organizations around the world with computing infrastructure and software to help them innovate.

- Working on infrastructure provisioning and automated service deployment across multiple regions and realms.
- On-boarded manual service region bootstrap onto an in-house automation and Deployment tool that was built on top of Terraform and reduced the time taken from 3 days to 6 hours.
- Contributing to the Terraform provider development and providing support for customers' queries.
- Participating in regular patching upgrades, on-call, and conducting the service health reviews.
- On-boarding and guiding the newly joined Engineers on service architecture overview and knowledge transfer sessions.

ZYNGA INC | CLOUD ENGINEER | NOVEMBER 2018 – JANUARY 2020

Zynga is an American social game developer organization with a cool mission of "connecting the world through games".

- My responsibilities in the team revolve around providing assistance and fulfilling requests on different AWS services, DevOps tools, and technology for the game teams.
- Worked on automating the underutilized resources clean-up and optimizing the cloud infrastructure, which helped reducing 36 percent of the total expenses.
- Worked on the design and implementation of the IAM automation system using AWS Lambda, Terraform, and Jenkins

MINDTREE LTD | DEVOPS ENGINEER | OCTOBER 2016 – NOVEMBER 2018

Mindtree is a Global IT technology enterprise focused on digital excellence and IT consulting.

- Worked as part of the DevOps CoE and Consulting team.
- Worked on automating the EC2 resources Start/Stop scheduling which reduced 50 percent of customer's cloud infrastructure costs.
- Worked on multiple automation ideas and projects using Shell, Jenkins, Ansible, Python and Other DevOps tools.

EDUCATION

BACHELOR OF ENGINEERING

Telecommunication Engineering
Siddaganga Institute of technology,
Tumkur - (2012 - 2016)

SKILLS

TECH-STACK/PLATFORMS

Proficient:

- Terraform • Docker • Git
- OCI Cloud • Kubernetes
- AWS • Jenkins • Jira

Experienced:

- Ansible • Linux • GCP

Familiar:

- Packer • Vagrant • LaTeX
